

PAINTING A SCALE COAT

ASSEMBLY:

**1****2****3****4****5****6****7**

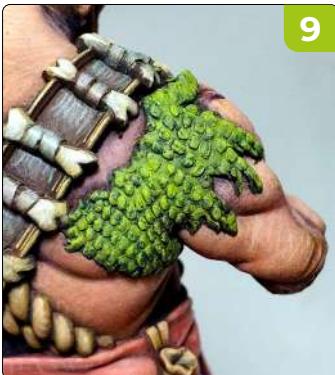

1. Start with a small ball of milliput and the scale skin texture plate.
2. Flatten the Milliput ball and make a thin layer. Also put a non-stick material coat (Oil, Soap) on the texture plate.
3. Place the layer of putty on the texture plate and press slightly to mark the scale pattern on it.
4. Carefully peel off the putty layer from the texture plate and put it on a plastic sheet to continue the work.
5. With a sharp and pointy modeling knife we cut the piece to get the desired shape.
6. Now soften the texture of the edges of the piece with a big and wet used paintbrush.
7. Finally we place the skin in its place and adjust the form well. Let dry the putty and after we will start the painting.

1797 FOREST GREEN
 3234 RANGER GREEN
 3230 ROTTEN GREEN
 1820 FLUBBER GREEN
 3231 CANARY GREEN
 3207 FANG WHITE
 1795 TROPICAL TURQUOISE
 1798 HUNTER GREEN
 3220 WONKA VIOLET

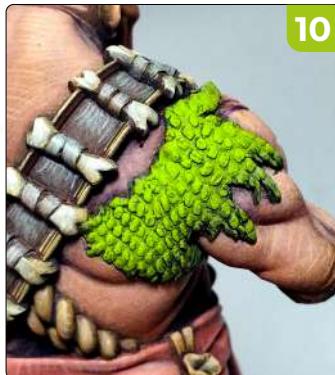

PAINTING:

8

9

10

11

8. Start with a basecoat of a 50% mix of 1797 - Forest Green and 3234 - Ranger Green.

9. General and abundant first highlights made by stippling with 3230 - Rotten Green.

10. Second highlights also stippling with 1820 - Flubber Green.

11. Keep highlighting with a 50% mix of 3231 - Canary Green and 1820 - Flubber Green.

12

13

12. Final highlights with a 50% mix of 3231 - Canary Green and 3207 - Fang White.

13. Shadows and tones with glazes of a 60 / 40 mix of 1795 - Tropical Turquoise and 1798 - Hunter Green, Highly diluted.

14

15

14. Carefully define all the scales with 3231 - Canary Green.

15. Finally apply soft glazes with highly diluted 3220 - Wonka Violet, mainly on the lower areas of the piece.

16

And that's all:

Quick, easy and really effective. Hope it will be helpful.

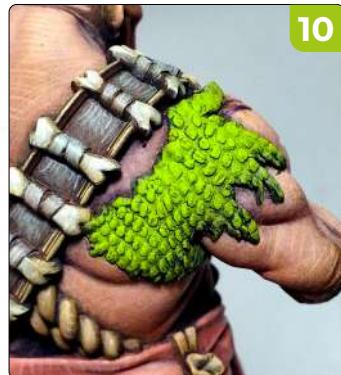

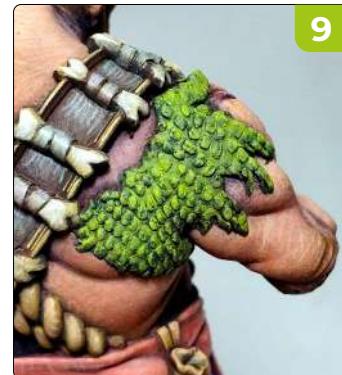

CAPA DE ESCAMAS - PINTADO

ASSEMBLY:

**1****2****3****4****5****6****7**

1797 FOREST GREEN
 3234 RANGER GREEN
 3230 ROTTEN GREEN
 1820 FLUBBER GREEN
 3231 CANARY GREEN
 3207 FANG WHITE
 1795 TROPICAL TURQUOISE
 1798 HUNTER GREEN
 3220 WONKA VIOLET
