

SNOW GAMING BASES

1

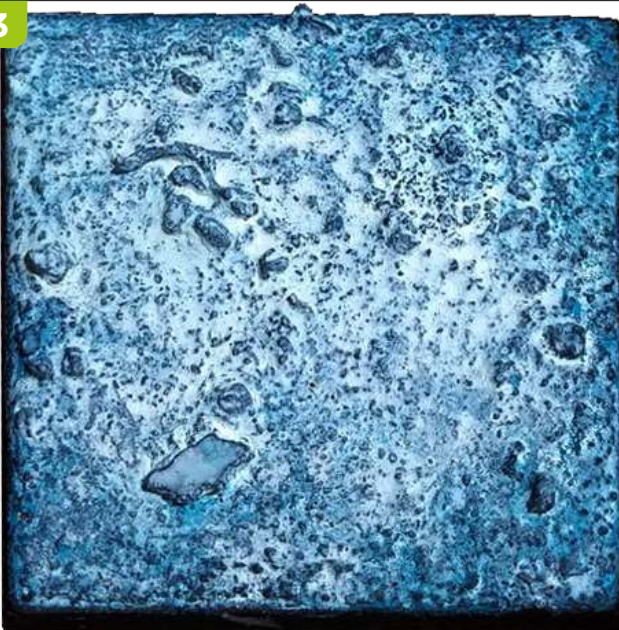

1. Cover the base with a mix of 2863 - PVA Glue and 11181 - Hobby Sand of different sizes and 1740 - Matt Primer Black.

2

2. Cover all the surface with 2 coats of 2291 - Turquoise Oxide liquid pigment.

3

3. Using now the 2299 - White Dust liquid pigment, cover the blue pigment with different amounts of white to create the snowy look.

4

Hope you like it! ;)

4. Finally apply a generous coat of 2887 - Gloss Varnish to create the humid snow sensation.

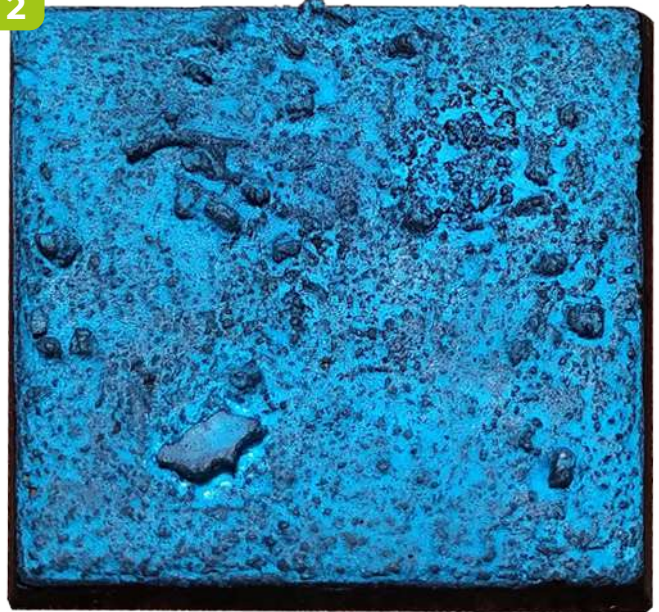

PEANA DE JUEGO NEVADA

1

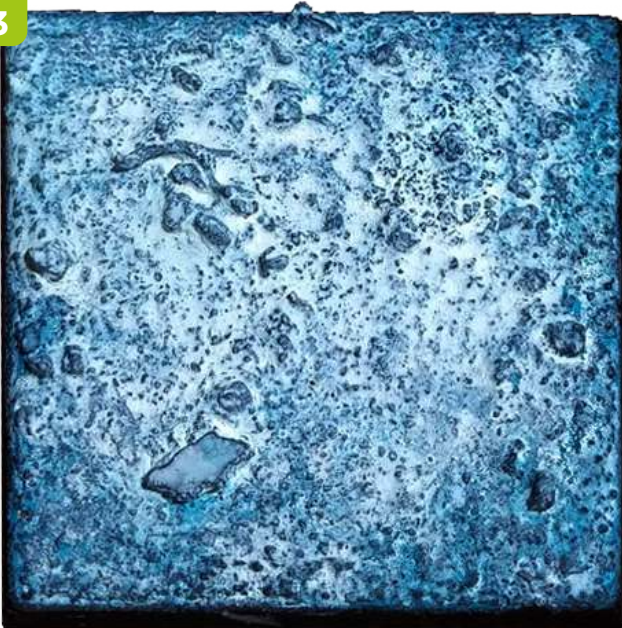

1. Cubrimos la peana con cola blanca 2863 - PVA Glue y arena de diferentes tamaños 11181 - Hobby Sand e imprimamos con 1740 - Matt Primer Black.

2

2. Cubrimos toda la superficie con dos capas de 2291 - Turquoise Oxide liquid pigment.

3

3. Usamos ahora 2299 - White Dust liquid pigment para cubrir el pigmento azul de forma irregular, para crear una sensación nevada.

4

Hope you like it! ;)

4. Finalmente aplicamos una capa generosa de 2887 - Gloss Varnish, para dar la sensación de nieve húmeda.
